

The 1st China-Japan Collaborative Seminar on High-tech Business Development

October 7, 2015, Shibuya Campus, Japan University of Economics

TeFFA cooperated with TAM Network, which operates businesses using new technologies, and organized a seminar concerning “High-tech Business Development” aiming at promoting technology exchange in the high-tech business sector between Japan and China.

The discussion at the 1st Collaborative Seminar covered “New Chitose Airport Expansion Project” and “Technology Development for the New Agriculture around the Airport”, and possibilities of a new business model creation by collaboration between Japan and China.
